SAN BERNARDING, Cal., Nov. 2.-SAN BERNARDING, Cai., Nov. 2.—
The San Bernardino First National Bank closed its doors yesterday, and posted a notice that the suspension was due to lack of funds. The directors assert that the bank's depositors will not lose a dollar. They state that the withdrawai of large sums of money by a few heavy depositors, who had become alarmed by rumors that the bank was unsafe, brought on the failure. It is understood the cause of the failure of the bank originated in personal quarrets among its officers. Fresident Joseph Brown says the bank will not resume business, but will go into inquidation. He says its assets are sufficient to pay all depositors in full and leave something to be distributed among the stockholders. The bank has a paid-up capital of \$100,000, and when closed had deposits of about \$200,000. Other banks in the city are not affected by the failure.
